Statement by Management on the annual report

The Manager and the General Partner have today considered and approved the annual report of VIA equity Fund A K/S for the financial year 19.10.2020 – 31.12.2021.

The annual report is presented in accordance with International Financial Reporting Standards as adopted by the EU and disclosure requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Fund's financial position at 31.12.2021 and of the results of its operations and the cash flows for the financial year 19.10.2020 – 31.12.2021.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Hellerup, 10.02.2022

On behalf of VIA equity a/s / VIA equity GP ApS

John Helmsøe-Zinck

Jesper Hørsholt

Independent auditor's report

To the shareholders of VIA equity Fund A K/S

Opinion

We have audited the financial statements of VIA equity Fund A K/S for the financial year 19.10.2020 – 31.12.2021, which comprise the statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Funds's financial position at 31.12.2021 and of the results of its operations for the financial year 19.10.2020 - 31.12.2021 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, Management is responsible for assessing the Fund's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Independent auditor's report

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Number of portfolio companies	1

For definitions and terms we refer to the section on accounting policies applied.

Primary activities

The Fund was established on 19 November 2020 for the purpose of investing in a Danish IT-company. The Fund has a committed capital of DKK 144.4 mio. of which the major part is from a recognized international investor.

The Fund is managed by VIA equity a/s in accordance with the agreed investment guidelines and management agreement, following which the manager may decide on investments and divestments subject to approval from an independent investment committee.

Development in activities and financial matters

The Fund made a minority investment in a Danish IT-company, which is the leading European provider of advertising technology for online campaign analytics encompassing campaign planning, ad serving & campaign optimization, web site analytics and reporting.

Result of the year

The portfolio company has in general developed well over the years and proven relatively resistant to the COVID-19 situation resulting in a positive fair value adjustment of DKK 229.1 mio. The Fund administration costs amounted to DKK 3.3. in line with expectations. The result for the year was a satisfactory profit of DKK 225.7 mio.

Management commentary

Uncertainty relating to recognition and measurement

The Fund has made an investment in a non-listed company, where the ability to divest and the company's earnings are influenced by various factors, and the fair market valuation includes judgements and estimates. The fair market valuation of the investment in the portfolio company is therefore subject to uncertainties and the investment will not at all times be liquid as different market conditions may influence liquidity.

For further description of valuation principles please refer to the accounting principles.

Events after the balance sheet date

From the balance sheet date until the date of the presentation of this annual report, no events have occurred that would materially affect the assessment of the annual report.

Outlook for 2022

Though the Fund is aiming at delivering a positive result no guidance in terms of the result is provided as this is highly dependent on the underlying performance in the portfolio company and general market conditions.

Social responsibility

The Fund considers social responsibility an integral part of making investments. The Fund aims at not making investments in companies that deliberately and repeatedly violates rules that have been laid down by national authorities in the markets in which the company operates or any rules, norms and/or standards that ensue from conventions or international agreements ratified by the EU and/or Denmark; nor engaging in activities that may be legal but that have aggressive tax planning as the main purpose or in activities that promotes violent conflicts.

The Fund focuses on active ownership to promote the long-term value creation of the investments. As part of exercising the rights as a shareholder the Fund is - through the management company - represented at portfolio company's general meetings and as boardmember on the Board of Directors.

Notes

1. Accounting policies

Reporting class

The annual report for the financial year 2020/2021 of VIA equity Fund A K/S is presented in accordance with the International Financial Reporting Standards as adopted by the EU and additional Danish disclosure requirements of the Danish Financial Statements Act governing reporting class B enterprises. VIA equity Fund A K/S is a limited partnership domiciled in Denmark.

The financial statements are presented in Danish kroner (DKK), which is the functional currency of the Fund.

This is the Company's first financial year and comprise the period 19.10.2020 - 31.12.2021, hence no comparative figures have been presented.

The Fund's investment is an investment in a portfolio company and are therefore not covered by IFRS 9. The Fund has no other significant assets and liabilities, which are covered by IFRS 9.

Fund's income consists of value increases on the investment, and the Fund has no contracts covered by IFRS 15. The Fund has not entered into any lease contracts covered by IFRS 16.

Where relevant, assessments made by Management when applying IFRS and which have had a significant impact on the financial statements are presented in the relevant notes to the financial statements.

Standards and Interpretations not yet in force

All of the new and revised standards and interpretations which are relevant to the Fund and which came into force with effect for financial years beginning 19.10.2020 have been applied when preparing the financial statements.

According to Management, new and revised standards and interpretations not effective as of 19.10.2021 will not have a significant impact on the financial statements and will not be early adopted.

Significant accounting policies and estimates

In preparing the financial statements, Management performs a number of accounting estimates which form the basis for the presentation, recognition and measurement of the Fund's assets and liabilities. The significant accounting estimates are outlined in note 2.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Fund, and the value of the asset can be measured reliably. Assets are derecognised in the balance sheet when it is no longer probable that future economic benefits will flow to the Fund.

Notes

1. Accounting policies (continued)

Purchase and sale of financial assets and liabilities are recognised in the balance sheet at the commitment date.

Liabilities are recognised in the balance sheet when the Fund has a legal or actual obligation as a result of an event before or on the balance sheet date, and it is probable that future economic benefits will flow out of the Fund, and the value of the liability can be measured reliably. Liabilities are derecognised in the balance sheet when it is no longer probable that economic benefits will have to be given up to settle the liability.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item. Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the statement of comprehensive income when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

Transactions denominated in other currencies than the Fund's functional currency are translated at initial recognition using the exchange rate at the balance sheet date.

Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date.

Exchange differences that arise between the rate at the transaction date and the one in effect at the payment date or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses.

Statement of comprehensive income

Realised gains/(losses) and unrealised fair value adjustments of portfolio company

Unrealised fair value adjustments of the Fund's portfolio company is recognised on a regular basis in the statement of comprehensive income. In addition, realised gains/(losses) are recognised in connection with the sale of portfolio companies.

Administrative expenses

Administrative expenses include expenses incurred during the year in connection with the Fund's investment management activities, including administrative expenses and management fees.

Financial expenses

Financial expenses include bank fees and interest expenses.

Notes

1. Accounting policies (continued)

Tax

The Fund is not liable to taxation independently, as the profit/loss for the year of the Fund is included at the partners level.

Balance sheet

Investments in portfolio companies

Investments recognised under fixed assets include investments in portfolio companies held with the purpose of trading, which are measured at fair value at initial recognition equal to cost price and are subsequently measured at fair value with regular recognition of fair value adjustments in the profit/loss statement.

The fair value is determined on the basis of market information, IPEV valuation guidelines and accepted valuation methods, including multiple analysis/benchmarking or other relevant methods, where it is considered to provide the best estimate of the fair value of the investment.

Cash

Cash comprises cash in bank deposits.

Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

Cash flow statement

The cash flow statement is presented according to the indirect method and shows cash flows for operations, investments and financing, and cash and cash equivalents at the end of the year.

Cash flows relating to operating activities are calculated as the operating profit, adjusted for non-cash operating items and changes in working capital attributable to operating activities.

Cash flows for investing activities include payments related to the acquisition and sale of portfolio companies.

Cash flows relating to financing activities comprise changes in the Fund's capital.

Notes

1. Accounting policies (continued)

Financial highlights

The ratios stated in the outline of key figures and ratios are calculated as follows:

Total Value to Paid In (TVPI)

The value of distributions to investors + the year end equity/contributed capital from investors.

Distributed to Paid In (DPI)

The value of distributions to investors/capital contributed by investors.

IRR

Internal rate of return is calculated on the basis of the actual cash flows as well as the value of the equity.

2. Significant accounting estimates, assumptions and uncertainties

The Fund has made an investment in a non-listed company, where the ability to divest and the company's earnings are influenced by various factors, and the fair market valuation includes judgements and estimates. The fair market valuation of the investments in the portfolio company is therefore subject to uncertainties and the investments will not at all times be liquid as different market conditions may influence liquidity.

This uncertainty may be greater in periods of high volatility in the financial markets, and the business cycle also affects earnings in the underlying company. The portfolio company has proven relatively resistant to the COVID-19 situation, why this has not had a material impact on the valuation but there is uncertainty in regards to the future impact. Methods and assumptions for the calculation of the fair value of investments in the non-listed portfolio company are described in note 11.

3. Fair value adjustments

	2020/2021 DKK'000
Realised gains / (losses)	0
Unrealised gains / (losses)	229,055
Fair value adjustments	229,055

4. Administrative expenses

Administrative expenses comprise management fee for the accounting period to the management company, VIA equity a/s, in accordance with the limited partnership agreement. For additional information on the management fee we refer to note 13.

Notes

5. Financial expenses

	2020/2021
	DKK'000
Other interest expenses and fees	(12)
Interest expenses for financial liabilities	(12)

	2020/2021
	DKK'000
6. Investments in portfolio companies	
Fair value beginning of year	0
Additions	140,000
Unrealised fair value adjustment	229,055
Fair value at 31.12.2021	369,055
Carrying amount at 31.12.2021	369,055

According to the requirements of IFRS 12, information concerning the Fund's non-consolidated portfolio companies must be provided and the information below is assessed as relevant for such.

<u>Investment</u>	<u>Corporate form</u>	<u>Registered in</u>	<u>Equity interest %</u>	<u>Profit/(loss) DKK'000</u>	<u>Equity DKK'000</u>
Adform	A/S	Copenhagen	20,9	13,939	169,423

The overview of investments above is based on financial information from the most recent published annual report at the time of the presentation of these financial statements.

Consistently with the accounting policies, the Fund regularly adjusts the value of the investments to the best estimate of fair value. This means that the proportionate share of operating profit or loss for the portfolio company is not recognised in profit or loss of the Fund, but rather a fair value adjustment of the investment.

The methods used by the Fund for the valuation of the investments are set out in note 11.

The Fund's portfolio company is not classified as an investment company as they deal with trading, development and production, etc. The Fund may have certain limitations in terms of being able to receive dividends or recover loans, etc., from the portfolio company with external financing.

Notes

10. Working capital changes	
Change in payables	35
	<u>35</u>

Notes

2020/2021
DKK'000

11. Financial risks and financial instruments

Categories of financial instruments:

Investments in portfolio companies (equity investment)	369,055
Financial assets measured at fair value through profit or loss	369,055
Other payables	(35)
Financial liabilities measured at amortised cost	(35)

All financial liabilities are due for payment within 12 months.

The Fund continuously manages and reduces risks by:

- in-depth business, technical, financial and legal due diligence before an investment is made;
- the conclusion of shareholder agreements in order to ensure the best possible protection and freedom of action of the Fund;
- continuous close monitoring of portfolio companies and active ownership, including participation in board services.

Interest rate risks

External financing has been used in the portfolio company. There is a limited interest rate risk in connection to the external financing.

Credit risk

Commitment has been fully paid-in by the Partners. No other credit risk apply.

Liquidity risk

The liquidity risk relates to the risk that the Fund may not fulfil its contractual obligations due to an insufficient amount of liquidity.

There are no investment commitment to the portfolio company. The liquidity risk is therefore considered to be very limited.

Notes

11. Financial risks and financial instruments (continued)

Investments in portfolio companies

The fair values of the individual portfolio companies are calculated on the basis of methods that best reflect individual investment risks, life cycle, and industry conditions. Generally applicable, the fair value is calculated in accordance with IPEV valuation guidelines and accepted valuation methods, including multiple analysis/benchmarking or other relevant methods.

Methods and assumptions for measuring the fair value in the portfolio company

Peer group multiple

The peer-group multiple method uses comparable companies where market value and earnings are known. On this basis, a market level for primarily e.g. EV/EBITDA is calculated for the comparable companies.

The calculated EV/EBITDA is then capitalised on the basis of a normalised EBITDA for the individual portfolio companies which, by adjustment for net interest bearing debt, yield the value of the investments.

In using the method, the Fund assesses which multiples can be used and assesses the determination of normal earnings in the portfolio companies, including assessing the sensitivity of the values when changing the model's variables.

Transaction multiple

At the transaction date, a transaction multiple is calculated based on the transaction value and the earnings at the transaction date (EBITDA). The multiple is only changed when there are significant changes in the surroundings of the companies, for example, industry conditions and micro- and macro-economic conditions, which are expected to be of a long-term nature. The portfolio company's expected earnings are adjusted periodically on the basis of underlying budgets, and an expected increase in future earnings may increase the valuation of the portfolio companies.

In certain cases, when applying a transaction multiple analysis, comparable business transactions are also assessed to identify which multiples would be relevant at a hypothetical sale of the Fund's portfolio company at the end of the accounting period.

Description of the valuation process

The valuation process is carried out in connection with the preparation of internal reporting to investors and in connection with the preparation of the Fund's annual report. The valuation assesses the portfolio investments at the end of the accounting period and must reflect the fair value of each portfolio company, based on reasonable valuation methods and assumptions.

Notes

11. Financial risks and financial instruments (continued)

Individual investments are assessed separately at the end of the accounting period and are in most cases assessed on the basis of the market situation as follows: (i) determination of the Enterprise Value (EV) estimated on the basis of a hypothetical sale of the investment at the time of the balancesheet date, based on one or more of the valuation methods mentioned above, and (ii) calculation of the value of the equity investment by adjusting EV for net debt and NWC adjustments as well as any equity related waterfall structures.

Fair value hierarchy for financial instruments measured at fair value in the balance sheet

Below, financial instruments measured at fair value are classified using the fair value hierarchy:

- Quoted prices in active markets for identical instruments (Level 1)
- Quoted prices in active markets for similar assets or liabilities or other valuation methods under which all material inputs are based on observable market data (Level 2)
- Valuation techniques under which any material inputs are not based on observable market data (Level 3)

2020/2021	Level 1 DKK'000	Level 2 DKK'000	Level 3 DKK'000	Total DKK'000
Unlisted shares, investment in portfolio companies	0	0	369,055	369,055
Financial assets measured at fair value through profit or loss	0	0	369,055	369,055

Significant non-observable inputs for level 3

Unlisted shares measured at fair value in the balance sheet are based on valuation methods incorporating significant non-observable inputs.

A significant non-observable precondition in the valuation is the multiples used, just as expectations of the future earnings of the portfolio company, which may be included in the valuation. The multiples applied are in line with the market for comparable entities. In addition, the valuation methods also takes account of net interest-bearing payables in the portfolio companies.

	<u>2020/2021</u>
Interval for multiples applied	11-15

Sensitivity analysis

The fair value of the Fund's portfolio companies is affected by the development of applied multiples as well as the realised and expected future earnings and the level of debt in the portfolio companies. A decrease or increase in the above significant non-observable inputs will have a direct impact on the valuation of portfolio companies. In addition, the fair value of the Fund's portfolio companies is affected by the development in a number of macroeconomic conditions in which reliable sensitivity analyses cannot be prepared.

Notes

11. Financial risks and financial instruments (continued)

A change in the non-observable inputs used will have the following effects on the fair value of portfolio companies

	<u>2020/2021</u> <u>DKK'000,000</u>
A reduction of 10% in applied valuation multiples will reduce the fair value by	34

	<u>2020/2021</u> <u>DKK'000</u>
Fair value beginning of year	0
Acquisitions	140,000
Fair value adjustments	229,055
Exchange rate gains/(losses)	0
Transfer to/from level 3	0
Fair value end of year	<u>369.055</u>

12. Contingent liabilities

There are no guarantees or contingent liabilities of the Fund.

13. Related parties and controlling influence

Related parties with a controlling interest

The Fund has no investors or related parties with a controlling interest.

We refer to note 6 for an outline of the portfolio company controlled by the Fund.

Transactions
