

DYNAMO PAY becomes a Continia Software solution

Continia Software has entered into a definitive agreement under which Continia Software GmbH has acquired the DYNAMO PAY solutions* from akquinet NEXT GmbH as of 01.01.2023.

With this acquisition Continia extends the range of certified add-ons with another finance solution for Dynamics Business Central and provide better support for customers and partners in the D-A-CH market.

Both parties are excited about this new joint venture. The management and employees of akquinet are thankful for the good partnership and cooperation so far and are pleased to have found Continia as a reliable successor for the DYNAMO PAY solutions.

A company you can bank on

In recent years, the banking industry has been undergoing an accelerated transformation worldwide, pushed by increased regulations and digital trends. Adapting to these changes and seizing new opportunities as an integrator is something that requires dedication and commitment. This is what Continia does by providing direct bank connectivity from Business Central for thousands of customers daily.

With this acquisition, Continia Software enables banking in Business Central for customers worldwide. Everything, such as managing payments, collecting money, and reconciling bank account statements, is finetuned with both Continia Payment Management, OPplus and now also Dynamo Pay.

About Continia

With over 30 years of experience, Continia Software is a leading ISV provider of scalable add-on solutions for Business Central. These solutions ensure full transparency, allowing finance departments worldwide to save precious time by digitizing and automating their manual tasks. With over 20.000 solutions sold and a worldwide presence, we know the finance department.
